MBM Destroyit 4605 Cross Cut Paper Shredder

The 4605 Cross Cut paper shredder has a top loading feed hopper for bulky materials such as waded up paper. This shredder can shred up to 90 pages of standard 20 pound paper at a time. It has a standard feed opening for flat paper with an automatic start and stop control. It comes with an attached table that will fold for easy storage. Automatic reverse and stop in case of a paper jam. This shredder can shred CDs and hardbound documents because of the high quality, hardened steel cutting shafts are soft metal resistant. Comes with a 61 gallon bin that is mobile for easy replacement of disposable shred bags. The cabinet door opens from the front. The Destroyit 4605 comes with a 10 year warranty of cutting shafts. Mounted on heavy duty casters so it is easy to move if needed. This is a great shredder for high volume shredding.
