Kobra 400 HS-OM Auto-Oiler High Security Optical Media Shredder

Suitable for Optical Media high security shredding. Totally dedicated to CD, DVD (single and dual layer, including 3.15 in. mini disks), Blue-Ray Disc and credit card shredding, up to and including the "TOP SECRET" level. KOBRA 400 HS-OM has been developed to meet the highest security standards of Military Bodies, Government Agencies and each application requiring maximum security. It can shred up to 2,550 optical media per hour. The special 0.06x0.1 in. cutting system, which is the highest security level today available for optical media, can shred an optical media disk into over 3,000 microchips which exceeds the Optical Media Destruction Devices guidelines and the ASIO T-4 standards for TOP SECRET level destruction of Optical Media. The tiny size of the shreds doesn't allow any possibility to retrieve or read any information left on small optical media particles even through specific and dedicated electronic equipments. KOBRA 400 HS-OM is equipped with the "ENERGY SMART" system for zero power consumption in stand-by mode and with a powerful 24 hour continuous duty motor without overheatings or duty cycle. KOBRA 400 HS-OM has been evaluated by NSA and meets the requirements of NSA/CSS Specification 04-02 for Optical Media Destruction Devices.without overheating or duty cycle.

KOBRA 400 HS-OM comes with an automatic oiling system as standard feature. Unlike other oilers from

other manufacturers, KOBRA 400 HS-OM comes installed inside the shredding head with all internal components. The oil reservoir is also internal and is held in a special mounting bracket inside the shredder cabinet. The auto-oiler oils the cutting heads in specific timing intervals based on usage and will keep the cutting blades clean, lubricated and at their maximum efficiency at all times. The oiler will also activate a signal light on the operations panel and will notify the user when the oil level is low to guarantee continuous oiling operation. The oil reservoir will hold one quart of oil and can be refilled or replaced conveniently.

We assure you, Kobra 400 HS-OM will meet the requirements of your most demanding applications.

- Suitable for Optical Media high security shredding
- Special 0.06x0.1 in. cutting system for Optical Media
- "Automatic Oiling System": automatically lubricates cutting knives
- "ENERGY SMART" management system for power saving stand-by mode
- 24 hour continuous duty motor no overheatings, no duty cycles
- Heavy duty chain drive with steel gears "SUPER POTENTIAL POWER UNIT"
- Bin volume: 53 gallons
- Steel cabinet mounted on casters
- Automatic Start/Stop through electronic eyes
- Automatic Stop when bag is full and electronic door safety switch
- Automatic Stop/Reverse/Clear in case of jams
- Motor thermal protection
