Kobra Cyclone

Industrial shredder designed for large quantities of material (theoretical output up to 940 lbs. per hour): paper (500 sheets at a time), credit cards (45.000 per hour), CDs/Dvds/Blu-ray (15.000 per hour), Floppy-Disks (7.000 per hour), cardboard, carton boxes, aluminium cans and plastic bottles. The size of the particles (Security Level) can be chosen when ordering the machine and it will always be possible to change the Security Level, choosing between 5 different available ones, any time after installation of the unit with a simple operation to adapt to any shredding need. Shredding capacity of 500 sheets at a time remains unchanged with any Security Level installed in the machine. Kobra Cyclone is equipped with an integrated vacuum system specifically designed to provide the operator with clean and dust free shredding environment. Kobra Cyclone is built with a double insulated shredding chamber and special plastic outer housing enclosure for low noise operation. It doesn't require any oiling of cutting knives or special maintenance. This makes it easy to use for everybody at the office. Kobra Cyclone complies with the shredding standards of ASIO - Australian Security Intelligence Organisation - T4 Protective Security. Security level 005 is NATO approved. Security Level 006 meets the latest shredding standards issued by the National Security Agency: NSA/CSS Specification 02-02 for paper destruction.

Kobra Compactor C-500

The Kobra Compactor model C-500 is designed to work with the Cyclone industrial shredder when paper is

being shredded. When shredding other materials, you simply remove the compactor and use standard Cyclone disposal bags. This optional accessory compresses and reduces the volume of the shredded paper by 4 to 5 times to minimize the space required for disposal. Easy to install and operate, the Kobra Compactor C-500 will work with any Cyclone security level screen. Compacted shredded paper can be collected into any type of container or into plastic waste bags.
