Kobra Cyclone HS Shredder + C-500 Compactor

**Kobra Cyclone HS**

The Kobra Cyclone HS is a high security industrial shredder designed for large quantities of "Classified" documents (500 sheets at a time). 2 available high security levels: level 005 (NATO approved) and level 006 which meets the latest shredding standards issued by the National Security Agency: NSA/CSS Specification 02-02 for paper destruction. The size of the particles (Security level) can be chosen when ordering the machine and it will always be possible to change the Security Level, choosing between the 2 different available ones, any time after installation of the unit with a simple operation to adapt to any shredding need. Shredding capacity of 500 sheets at a time remains unchanged with any Security Level installed in the machine. It doesn't require any oiling of cutting knives or special maintenance; this makes it easy to use for everybody at the office. Kobra Cyclone complies with the shredding standards of ASIO - Australian Security Intelligence Organisation - T4 Protective Security.

**Kobra Compactor C-500**

The Kobra Compactor model C-500 is designed to work with the Cyclone industrial shredder when paper is being shredded. This optional accessory compresses and reduces the volume of the shredded paper by 4 to 5 times to minimize the space required for disposal. Easy to install and operate, the Kobra Compactor C-500 will work with any Cyclone security level screen. Compacted shredded paper can be collected into any type

of container or into plastic waste bags.

- Unique Technology: Kobra Cyclone it's equipped with a turbine generating a high pressure air flow and sets of high speed rotating blades. By making the air stream spin, particles are subjected to centrifugal forces and deposited from the air flow into the disposal bag
- High efficiency motor: can save a considerable electrical energy/year cost
- 24 hour continuous shredding operations. No overheating
- Control panel: just press the start button, throw the material into the large entry opening and leave, Kobra Cyclone will automatically shred everything and go into stand-by mode when shredding is completed; a Load Meter positioned in the center of the control panel measures the actual load on the turbine and on the rotating blades and shows the operator the availability of the shredding capacity at any time during intensive and continuous shredding jobs, for full shredding output and power of the Kobra Cyclone
- No oiling of cutting knives. No lubrication. Easy to use without any maintenance operation
- Manual Start/ Automatic Stop with Stand-by function
- Automatic Stop with light signal for bag full
- Rear window for easy checking of waste bag level
- Double insulated shredding chamber and special plastic outer housing enclosure for low noise operation
- Integrated vacuum system specifically designed to provide the operator with clean and dust free shredding environment.
- 400 liter bag volume
- Built-in-trolley with casters for easy removal of waste bag
- Motor thermal protection
- Accessories: Kobra Compactor C-500 (compresses and reduces the volume of the shredded paper by 4 to 5 times), plastic waste bags (10 pcs.) code 51.221, filter bags (10 pcs.) code 51.225, available Security Level screens: Screen Level 005: code 51.202; Screen Level 006: code 51.201
- Certification marks: CB - CSA - CE
